

## Global Market Intelligence (GMI)

Comprehensive industry and fund data through industry-leading pricing.

### Overview

FLX Analytics is built on a foundation of unprecedented industry data. It provides you with consistent and reliable information that can be accessed via one comprehensive solution.

### Key Features

#### Customizable Dashboards

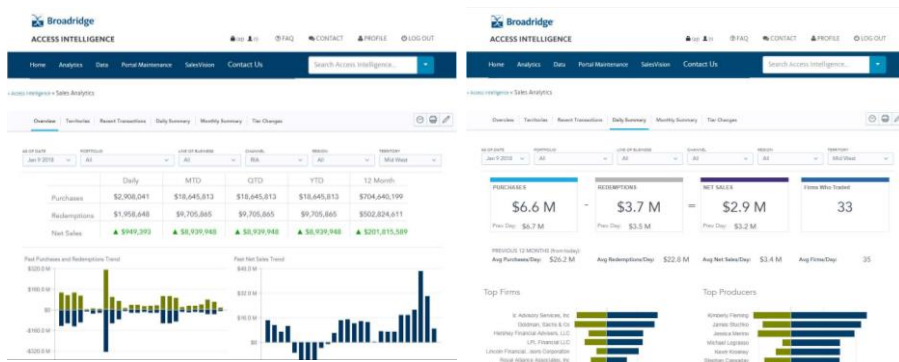

- Tailor your analytics experience with dashboards filters.
- Easily monitor the metrics that matter most to your investment strategy.

#### Industry Flow Analysis

- Analyze industry flows for mutual funds, ETFs, closed-end funds, and interval funds.
- Stay ahead of market trends with real-time data on fund flows.

#### AUM Data Insights

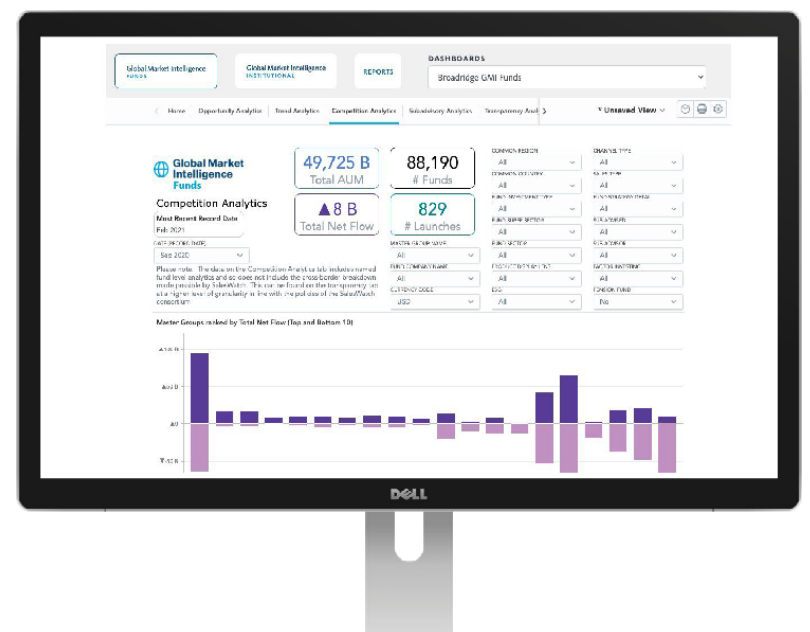

- Access detailed insights into assets under management (AUM) across various fund types.
- Utilize AUM data to make informed investment decisions.

## FLX Analytics Vs. Direct Data Sourcing

### Significant cost savings for asset managers using FLX Analytics

- ✓ Gain unparalleled insights into industry flows and AUM data.
- ✓ Enhance decision-making with real-time global market intelligence.
- ✓ Customize your analytics experience for a personalized and efficient workflow.
