

FLX Sales Reporting

FLX
NETWORKS

ETFs, Mutual Funds (MF), and Separately Managed Accounts (SMA)

Cost-effective data and reporting to manage and grow your business.

Overview

Our Sales Reporting solution provides a streamlined approach to tracking and analyzing sales activities for ETFs, Mutual Funds (MF), and SMAs. With cost-effective options and customizable reporting features, we aim to deliver value beyond traditional data solution providers.

What's Included

Comprehensive daily transactional data and asset information to help you analyze, manage and grow your business in a cost-efficient way.

Key Features

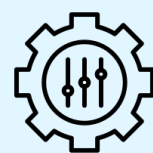

ETF Reporting allows access to comprehensive ETF market analytics at a competitive cost.

Choose from flexible pricing plans, including a non-exportable version.

MF/SMA Reporting allows you to track sales performance for Mutual Funds and Separately Managed Accounts.

Benefit from customizable reporting options with cost-effective pricing models.

Enjoy significant cost savings compared to traditional reporting solutions.

Your sales, marketing, and product management teams gain valuable insight and business intelligence that allows them to quickly and easily analyze, track and report sales and asset trends.

Select from budget-friendly plans tailored to your organization's needs.
